

VINOTH S

ASPIRING SOFTWARE ENGINEER

9003253824 | itz.vinoth04@gmail.com | CHENNAI | [PORTFOLIO](#)

[LINKEDIN](#) • [GITHUB](#) [LEETCODE](#)

PROFILE .

Motivated Computer Science student with a strong foundation in programming, data structures, and problem solving. Skilled in languages such as Python and Java, with experience in developing academic and personal projects. Passionate about learning new technologies and building efficient software solutions, with strong teamwork, analytical thinking, and communication skills in collaborative environments.

TECHNICAL SKILLS .

- Python , Java , C
- ML fundamentals
- DSA & OpenCV
- Time Management
- Leadership Skill
- Effective Communication
- Critical Thinking
- Adaptability
- GIT & Render

LANGUAGES .

- English (Fluent)
- Tamil (Fluent)

EDUCATION

Course / Degree	Institution	Details / Score	Year
B.E (Computer Science and Engineering)	Rajalakshmi Engineering College	GPA: 8.9/10	2024 - 2028
HSC	SCPJ School	Percentage: 94%	2022 - 2024
SSLC	SCPJ School	Percentage: 96.2%	2021 - 2022

ACHIEVEMENTS AND PROJECTS

SMART INDIA HACKATHON (2025)	- Participant of Smart India Hackathon, a national level innovation competition organized by the Government of India. - Collaborated with a team to develop a technology-based solution for real-world problem statements. - Contributed to problem analysis, idea development, and prototype design during the hackathon.
SMART ATTENDANCE SYSTEM	- Developed an automated attendance system using face recognition and computer vision techniques. - Implemented image processing using Python and OpenCV to detect and recognize faces. - Recorded attendance data in a database and generated reports to improve attendance tracking efficiency.
CERTIFICATES	- TEKBEE TECHNOLOGIES (INTERNSHIP) - NPTEL - AI AND BUSINESS STRATEGY - PYTHON DATA ANALYSIS - PROGRAMMING WITH C - GENERATIVE AI

TECHNICAL / ACADEMIC PROJECTS

Project Title	Description	Tech Stack
Smart Attendance System	Face recognition based Attendance System that marks and stores attendance with report generation.	Python, OpenCV, SQLite
Personal Portfolio Website	Responsive personal portfolio website to showcase projects, skills and resume.	HTML, CSS, JavaScript
Data Analysis Project	Exploratory Data Analysis on real-world dataset with visualization and insights.	Python, Pandas, Matplotlib
